The School District of Mystery Lake wants to identify children with exceptional learning needs who require support in order to have success in school when he/she enters kindergarten next year. Resource teachers in the District are responsible for overseeing the intake of these special needs children.

“Students with exceptional learning needs are those who require specialized services or programming when deemed necessary by the in-school team because of exceptional learning, social/emotional, behavioural, sensory, physical, cognitive/intellectual, communication, academic, or special health care needs, that affect their ability to meet learning outcomes” (Manitoba Education, 2006).

Please fill in this form if you think your child has special needs. This allows us to begin gathering information to help your child. In some cases, we may ask you to pre-register your child at the School Board Office so that programming can be started.
