Crisis Response Plans

The Principal of each school must annually, in consultation with a school advisory committee:

1. establish or designate a Crisis Response Team
2. call meetings of the Crisis Response Team and keep a record of proceedings
3. develop a Crisis Response Plan
4. ensure that the school's Crisis Response Plan is communicated to all school personnel with designated responsibilities and to students and parents where appropriate
5. submit the Crisis Response Plan to the senior administration and/or the province as required
6. Each school will have a yellow Crisis Response Manual and Emergency Response Kit. It is the school administrator's responsibility to ensure the materials and resources contained in the Crisis Response Manual and Emergency Response Kit are up to date.
